Multinomial Application: Gives probability of exactly n_i outcomes of event i , for $i = 1, 2, \dots, k$ in n independent trials when the probability p_i of event i in a single trial is a constant. Used frequently in quality control and other industrial problems. Example: Four companies are bidding for each of three contracts, with specified success probabilities. What is the probability that a ...

sickness may surround you, so you may one day realize how evil you thought and wrote. Then may ALLAH guide you, but if you think you will not change and are sure that you are blind and deaf from your heart then I promise to meet you on the you will die and I further promise that ALLAH has forwarded your file to me and I will further punish you in hell.
